

## EUROHE103 : HIGH TRANSFER SPRAY GUN WITH 1.3MM NOZZLE & PLASTIC CUP

### Features:

**DURABLE & LIGHTWEIGHT** · Forged body provides longer tool life · Anodized body for corrosion protection · Slick finish for faster & easier cleaning · Internal coated passages · Stainless steel needle and fluid tip · Lightweight: 325 grams (0.7 Lbs) **HIGH EFFICIENCY** · Unique pattern designed for great coverage, optimal overlapping · Low overspray (bounce back) · Great transfer efficiency · Superior atomization · Innovative High Efficiency (HE) advanced technology **QUICK THREAD TECHNOLOGY** · 1 Turn to lock/unlock the air cap · 3 Turns to lock/unlock the fluid tip · Wide threads for easy cleaning · M16\*P1.5 female thread fluid joint · Compatible with most traditional and disposable cup systems **SMOOTH OPERATION** · Soft trigger pull to reduce fatigue · Precise lubricated adjustment knobs for better control · Innovative CNC machining to avoid the need for gaskets behind the fluid tip **SPECIFICATIONS:** Nozzle Size: 1.3mm Cup Capacity: 600ml Operation Pressure: 29psi Weight: 0.7lbs. (325g) Dimensions W x H: 7" x 5-3/4" (175mm x 145mm) Avg. Air Consumption: 10.5-12.5cfm Air Inlet Thread NPT: 1/4" Required Compressor: 3-5hp Max. Pattern at 6" to 8" Distance: 11"-13" (280-330mm) Air Hose I.D. Size: 6-8mm
