

## Application infinite

Mini Lift is an ultra small mobile scissor lift for raising the vehicle from the front side or the back side up to 1.5 meters.

The reduced dimensions make it as small as a standard jack but allows it to do as many processes as a 2-post lift.

The Mini Lift can be used on all types of cars from a small passenger car to a S.U.V

## AIR SPRING

**Firestone**

Time  : 12 sec.

Time  : 17 sec.
