

## Waterbased Gun Cleaners

UM80W

UM120W

- Compact unit designed for quick color changes.
- Uses high pressure water to clean the paint channel in less than 30 seconds - at the press of a button.
- Flow-through brush removes paint from the outside of the gun.
- Air Blow Gun dries the spray gun and a spray out verifies a clean paint channel.
- Also includes Cap Brush and whip line
- Ideal for cleaning PPS and other disposable cup adapters.
- Option of cleaning with "Aqua Kleen" cleaning solution which will increase the cleaning power by almost 3 times.
- The dirty solution can then be reclaimed by using the "Coag Kleen" flocculent which removes the absorbed waste paint and solids from the solution used for cleaning. The cleaned recovered solution can then be used several times before disposal. The separated paint waste when dry can be disposed in accordance with local regulations.
- The process of recycling and flocculation is possible only on the UM 120W
